Junior Achievement (JA) believes in the boundless potential of young people. Irrespective of their socio-economic background, they can create their own future.

Junior Achievement Hong Kong (JA HK)

JA HK is dedicated to inspiring and preparing young people to succeed in the global economy, through our applied learning programs in work readiness, entrepreneurial thinking and financial literacy. JA HK is one of the 100+ members of JA Worldwide, and a leading provider of Other Learning Experiences in Hong Kong. Our programs enable young people to learn the world of work from the first hand experience of business volunteers. Since our establishment in 2001, we have engaged the support of over 20,000 business volunteers from some 700 companies.

Vision of JA HK

The job landscape is changing rapidly owing to globalisation, technological advances, growing life span, environmental challenges and the shifting centre of economic gravity from West to East.

Hong Kong is also at the cusp of a momentous transformation. There are widespread sentiments in various quarters of the society that this city has to reinvent itself for a more sustainable future.

With the rapid changes in the local and global business environment, it is ever more important that we provide a strong foundation upon which the young people of Hong Kong can build their future. JA HK seeks to nurture a new generation of innovative, entrepreneurial, compassionate and civic-minded talents with a global vision.

Business is a powerful agent of change, and so are our next generation. Whilst young people can benefit from the experience and knowhow of business volunteers, business can also benefit from their youthful insights and creativity.

JA HK aspires to provide the platform for the business community and young people to co-create the future of a more prosperous and sustainable Hong Kong.
Learn with JA HK

JA HK currently offers a Business Ethics program to university students in Hong Kong. The program (3 hours x 2 sessions) exposes students to ethical challenges in the workplace. Under the guidance of experienced business volunteers, students learn how to successfully navigate these dilemmas and apply their knowledge in real-life situations.

Volunteer with JA HK

JA HK is also keen to recruit more university student volunteers to deliver our two primary school programs:

JA Play Lab

JA Play Lab is a fun-filled, activity-based curriculum designed to help children understand their roles as consumers, employees and citizens. Through play, the modules (from P.1 – P.6 at 1-1.5 hour each) allow children to use their creativity while developing their cognitive and emotional strength. It enables children to engage and interact in the world around them and learn entrepreneurial skills at an early age.

JA More than Money

JA More than Money introduces sensible financial management to primary school students and encourages positive lifelong habits. Through hands-on and engaging activities (3 sessions x 2 hours), students understand money basics, apply those skills to daily life, and recognise the significance of financial management in making informed life-decisions.

JA HK programs are developed by education and professional experts in the US and in Hong Kong, and delivered by experienced business volunteers. Every program is accompanied by a student manual and a volunteer guide to facilitate program delivery.

Benefits of Volunteering with JA HK

JA HK provides an excellent service learning opportunity for university students:

Our volunteers get energised and inspired through imparting their experience to and learning from the next generation. By serving as role models, volunteers also develop their leadership and communication skills.

To enrich the volunteer experience, JA HK will provide online and offline opportunities for business and student volunteers to network, share professional insights and learn the best business practices.

Please contact JA HK for more information on our programs and volunteer opportunities for university students.
