The Schools Challenge – Live Smart@Kowloon East
「智慧生活@九龍東」香港學生挑戰賽

Support as University Student Volunteers!
Join our team of J.P. Morgan business volunteers to support and mentor secondary students on a STEM-focused social innovation challenge.

About the Program
Co-organized by Junior Achievement Hong Kong (JA HK), J.P. Morgan, and supported by Energizing Kowloon East Office (EKEO), The Schools Challenge – Live Smart@Kowloon East is a STEM-focused social innovation program for Form 2 and Form 3 students from the Kowloon East area. The program aims at broadening students’ interest and learning of various STEM disciplines, and encouraging them to co-create innovative solutions that helps Kowloon East to transform into a pioneer smart city in Hong Kong.

Throughout the 5-month program, each team (4 - 6 students) will be mentored by two J.P. Morgan volunteers and supported by two university student team leaders.

University Student Volunteers
STEM, design, business… all disciplines are welcome!

- As coordinators among J.P. Morgan mentors and students in your team
- Provide guidance to your team on their solutions
- Bilingual in Cantonese and English

Benefits
✓ Develop interpersonal & communication skills
✓ Enhance your STEM knowledge and skills through supporting younger students
✓ Unique opportunity to work together with and learn from J.P. Morgan volunteers
